EDUCATION

Bansal College of Engineering

Bachelor of Technology | Major in Computer Science and Engineering | CGPA: 7.83

Mandideep, Raisen

June 2021 – May 2025

WORK EXPERIENCE

Tech Extensor

Associate Developer

Ahmedabad

October 2024 – Present

- Promoted from Web Intern to Associate Developer within 6 months based on performance and ownership of production-level features.
- Contributing as a Full Stack Developer for a US-based ticket reselling platform using C#, ASP.NET, SQL, JavaScript, and REST APIs.
- Delivered 20+ scalable features across frontend and backend, improving system performance and user engagement.
- Owned end-to-end feature development lifecycle including requirement analysis, system design, database schema design, API development, testing, and deployment.
- Leveraged AI-assisted development tools (Claude Code, ChatGPT) for end-to-end feature implementation, debugging, refactoring, and code optimization.

Netlink Software Group America Inc.

Front End Developer Intern

Mandideep, Raisen

April 2024 – June 2024

- Developed responsive UI components for Lumenore, a business analytics and app builder platform.
- Collaborated within a 20+ member Agile team environment.
- Built 3+ domain-specific applications using modern frontend technologies and improved UI responsiveness and usability.

PROJECTS

Bus Ticket Management System (BusEasy)

November 2023 – January 2024

- Developed a full-stack ticket booking platform with search, booking, and cancellation functionality.
- Designed admin dashboard for schedule management and implemented relational database schema using SQL.
- Built responsive UI with proper routing, state management, and backend integration.
- Ensured clean architecture and modular code structure following SDLC practices.
- Link: <https://buseasy.netlify.app/>

Social Media App (MadBook)

June 2023 – August 2023

- Built 'MadBook,' a full-stack social media platform using the MERN stack
- Implemented authentication, authorization, CRUD operations, REST APIs, and real-time chat using WebSockets.
- Designed scalable backend architecture and optimized database queries.
